Dear runners,

As you probably already know, the winner of the Masters World Championships 2021, category M40, has been disqualified. You can find the updated results on the [WMRA web site](#).

The disqualification affected the individual and team ranking. All the silver medallists are now gold medallists etc.

The WMRA would like to make new awards ceremony during the Masters World Championships in September in Ireland. It is expected that all the medallists will bring their medals back and of course officially receive the new ones respecting the new individual and team ranking.

The British team with just two members is in the updated ranking on the fifth position. Like above mentioned, it is expected that all of them will return the medals. This is the condition to be allowed to start the future Championships, including 2022.

The new ranking:

Men 40-44				
1	LECHLEITNER Simon	AUT	79	01:01:32
2	BURRELL Galen	USA	79	01:02:50
3	HILLEBRAND Johannes	GER	79	01:04:42
